

Centrifugation services / Users from the University of Helsinki (VAT 0%)

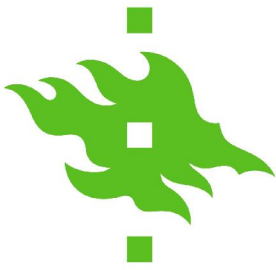

Service	Price
Kick-off meeting (on request)	37 € / h
Academic personnel advices on the design of the experiments.	
Training (obligatory for new users)	30 €
Technical personnel advices in the use of gradient master, and operation of centrifuges and rotors. User learns the safety issues on using the centrifuges and rotors. Price includes technical support during the first time of centrifuge use.	
Support during centrifugation	25 € / h
Technical personnel assists the use of centrifuges.	
Regular use of centrifuges	250 € / user per calendar year
Regular use of centrifuges, rotors and gradient master for one calendar year.	
Limited use of centrifuges (maximum of 6 centrifugations)	50 € / user per calendar year
Use of centrifuges, rotors and gradient master for maximum of six times per one calendar year.	
Centrifugation service and manual fractionation	90 € / rotor (max. 6 tubes)
Biocomplex performs one centrifugation (1 centrifuge and 1 rotor). Price includes the preparation of requested gradient using the solutions and tubes provided by the customer, sample loading to gradients, centrifugation (with the parameters provided by the customer) and manual fractionation of the gradients after the run.	
Full service and collaborative projects	Project specific
Price is negotiated separately.	

Part of the instrument time is available for service users.

Centrifugation tubes sold by Biocomplex (VAT 0%)

Product	Price
Tubes for swing-out ultracentrifuge rotors*	
· TH641 (SW41 Ti)	3 € / tube
· AH629 (SW28 Ti)	3 € / tube
· AH650 (SW50.1)	2 € / tube
· TST60.4/TH660 (SW60 Ti)	2 € / tube
Tubes for fixed-angle ultracentrifuge rotors*	
· T-1270, Ti50	10 € / tube, 25 € / cap
· T865	10 € / tube, 55 € / cap
· T647.5	30 € / tube, 125 € / cap
· A-621**	190 € / tube, 55 € /cap
Tubes for super speed centrifuge rotors	
· F20	20 € / tube and cap
· F14	25 € / tube and cap
· F12	30 € / tube and cap
* Sorvall rotors, corresponding Beckman rotors in parenthesis	
** Ask price for renting the A-621 tubes.	

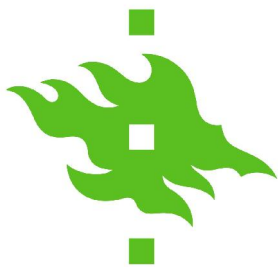

Asymmetrical flow field-flow fractionation (AF4) / Users from the University of Helsinki (VAT 0%)

Service	Price
Kick-off meeting (on request)	37 € / h
Academic personnel advices on the design of the experiments.	
Set-up of the machine for ready-to-use (obligatory)	30 € / use
Machine is washed and rinsed and the requested membrane (priced separately) is installed. Solutions needed for the clean-up are included in the pricing. Filters for tip and focus pump are replaced (included in the price).	
Training and user support	25 € / h
Technical personnel provides user support and gives practical training to promote independent use of AF4.	
Independent use of AF4	60 € / day
User operates instrument independently.	
AF4 service	130 € / day
Biocomplex performs experiments based on the parameters and buffers provided by the customer.	
Full service and collaborative projects	Project specific
Price is negotiated separately.	

Part of the instrument time is available for service users.

Products for asymmetrical flow field-flow fractionation (AF4) work sold by Biocomplex (VAT 0%)

Product	Price
Membranes*	
• Regenerated cellulose, 1 kDa or 10 kDa MWCO	70 € /membrane
• Regenerated cellulose, 100 kDa MWCO	100 € /membrane
Tubes for fraction collection	0.30 € / tube
Filtering of the buffers**	25 € / 2 litres
* Membrane can be used for ~50 analysis.	
** 0.1 µm pore size; minimum of 2 litres, provided by the customer	

Chromatography service / Users from the University of Helsinki (VAT 0%)

Service	Price
Kick-off meeting (on request)	37 € / h
Academic personnel advices on the design of the experiments.	
Training and user support	25 € / h
Technical personnel provides user support and gives practical training to promote independent use of the chromatography equipment.	
Set-up of the machine for ready-to-use (obligatory)	70 € / use
Machine is washed and rinsed and the requested column (CIM QA or DEAE) is installed. Solutions needed for the clean-up are included in the price.	
Independent use of chromatography equipment	35 € / day
User operates chromatography equipment independently.	
Chromatography service	100 € / day
Biocomplex performs the chromatography based on the parameters and buffers provided by the customer.	
Full service and collaborative projects	Project specific
Price is negotiated separately.	

Part of the instrument time is available for service users.
