

Welcome to

HELSINKI

JUN 16 – 20, 2019

Welcome to the 23rd Conference on Organometallic Chemistry
(EuCOMC XXIII)

The 2019 edition in the EuCOMC series will provide a stimulating environment for scientific discussions, as well as seeds for academic collaborations and academic-industry partnerships by showcasing developments, achievements and prospects in plenary presentations, keynote lectures, oral communications and posters.

One of the highlight topics will be chemical conversion of CO₂ and other “difficult” substrates to products of higher value. Contributions to this and other current directions of organometallic chemistry are most welcome.

On behalf of the organizing committee,

Welcome to Helsinki

Helena Grennberg and Timo Repo

INVITED SPEAKERS (CONFIRMED):

Eva Hevia (UK)

Ruben Martin (Spain)

Kathrin Hopmann (Norway)

Rinaldo Poli (France)

Mimi Hii (UK)

Bernhard Rieger (Germany)

Walter Leitner (Germany)

Troels Skrydstrup (Denmark)

Zoltan Novak (Hungary)

Jarl Ivar van der Vlugt (Netherlands)

Fabio Marchetti (Italy)

Amalia Poblador Bahamonde (Switzerland)

Max García-Melchor (Ireland)

Heikki Tuononen (Finland)

Important dates and information:

March 31st closing of early bird registration.

April 15th closing of abstracts' submission for consideration to the oral program.

May 20th closing of poster abstract submission.

Registration closes at 450 participants.

For fees, accommodation and to register see <http://www.eucomc2019.fi/>
