

Moving of the personnel at the Laboratory Animal Centre

Personnel can move from clean unit to dirtier *without quarantine*:

- From F-building's research-rooms (and barrier) to all other units
- From H8 (Biomedicum) research area to Viikki Biocenter 3 and Large Animal units

When personnel is moving from dirty unit to cleaner one:

- Clothes must be changed and washed before going the cleaner unit. Also the shower and hair washing are needed.
- Only the needed equipment should be moved between the units. All equipment that can be sterilized, have to be sterilized, others are disinfected (**NB!** Watches, ornaments and other personal things are left in the locker room, eyeglasses are washed carefully).

- **To F-building's research area, the quarantine time is 48 h from all units**
- **To H8, the quarantine time is 48 h from Biocenter 3 and Large Animals units**

Internal mice transfer at the Laboratory Animal Centre
