

Conference release 22. March 2021

Dear colleagues,

After a long and unconventional year we are delighted to release the following information:

The next NordILL conference will be held online on 25.-26.10.2021.

The theme for the conference is *Empowering knowledge – Accelerating access*.
Conference info will be updated to the web pages:

<https://www2.helsinki.fi/en/conferences/nordill-2021>

During the passed year, when all our usual meetings and conferences have been cancelled, we have realized how important it is to maintain professional networks and keep up the collegial connections. Therefore we are more than happy to meet you virtually in October!

We will update the Conference program and registration information during this spring. Meanwhile if You have any questions about the Conference, please contact: varkirja@nrl.fi and title your message *NordILL2021*.

Let's stay safe and see you online on October!
