

# FCLAP:

## Technical Services Work Flow:

### Submission of organ specimens

#### Submission of fixed tissues:

Trimming by FCLAP technicians, paraffin embedding, options:

- Provision of paraffin blocks to researcher
- Provision of tissue sections (stained, unstained) to researcher
- Histological evaluation of stained sections by pathologist

#### Submission of fixed tissue sections in cassettes:

- Use of cassettes provided by FCLAP
- Paraffin embedding and options as for fixed tissues
- Optimal for studies in which only **selected organs** are of interest and when parts of the organs are used for other tests
